Category	Lathes - Vertical Turret Lathe	
Manufacturer	Summit	
Model	170	
Serial	91120	
Year	1979 - 1980, rebuilt 11/1999	
Country of Manufacture	Italy	
Control	GE Mark Century 100H 2-axis CNC	
Chuck Type	Four-jaw with top jaws and independent jaw operation	
Maximum Swing	77.00 in	1955.80 mm
Maximum Turn Height Under Rail	67.00 in	1701.80 mm
Maximum Table Load	35247.00 lbs	15987.77 kg
Motor Power Output	80.00 hp	59.66 kW
Motor Power Input	3 phase, 60 cycle, 370/400 volts	
Tool Turret	Five-sided	
Transformer Input	480/240 delta, output 380 delta, 175 KVA	
Rail Elevation Screws	Acme	
Lubrication System	Automatic	
Table Speed Ranges	Three, from 1 to 200 RPM	
Table Diameter	70.75 in	1797.05 mm
Chip Conveyor	Jorgensen with coolant pan and pump	
Additional	Air conditioned electrical panel, no side head, feed and speed overrides, free standing hydraulic system, chuck area work guards, vertical column ways,	
Condition	Good
